Initial Prompt

"Create a one-page website for a personal portfolio.

Include sections: Home, About Me, Skills, Projects, Contact.

Use a clean modern design with a blue and white color scheme.

Make it responsive and visually appealing."

Refinement Prompt

how to edit the About tab

4 days ago

Show less

Explaining editing instructions (5 seconds)

I'll point you to the exact spot so you can change the About content safely.

7 actions

To edit the About section, open:

`artifacts/personal-portfolio/src/components/sections/about.tsx`

The main editable text is here:

- Heading: line 19
  `Hi, I'm Alex. A design-minded engineer.`
- Paragraphs: lines 23–36
- Stats: lines 42–50
  `10+ Years Experience` and `50+ Projects Delivered`
- Portrait image: line 10
  Replace the `src="..."` URL with your own image URL.

After editing, the preview should update automatically. If you want, send me the exact About text and image you want, and I can update it for you.

How to edit the Skills Tab

1 day ago

Show less

I'll find the exact Skills section file and point you to the lines you can edit.

2 actions

To edit the Skills section, open:

`artifacts/personal-portfolio/src/components/sections/skills.tsx`

The main parts to change are:

- Skill cards: lines 4–29
  Edit each `title` and `description`.

Example:

```
{
  icon: <Layout className="h-6 w-6 text-primary" />,
  title: "Frontend Development",
  description:
    "Building responsive websites using React, TypeScript, and
Tailwind CSS.",
}
```

- Technology pills: lines 31–33
  Edit this list:

```
const TECHNOLOGIES = [
  "React", "TypeScript", "Next.js", "Tailwind CSS", "Figma",
"Node.js", "PostgreSQL", "
];
```

25 minutes ago

Which project card should I use this lab image for?

Current options are likely:

- Fintech Dashboard
- Healthcare Platform
- E-Commerce Experience / Full-Stack Development

Tell me which one, and I'll replace that picture.

Checkpoint made 25 minutes ago

fintech dashboard

24 minutes ago

Resolving image needs

I'll replace the Fintech Dashboard image with the lab shelves photo from the Unsplash link and then refresh the preview.

3 actions

I found that the first card has since been renamed to "Scientific Method," but it's the same position as the old Fintech Dashboard card. I'm updating that first project image now.

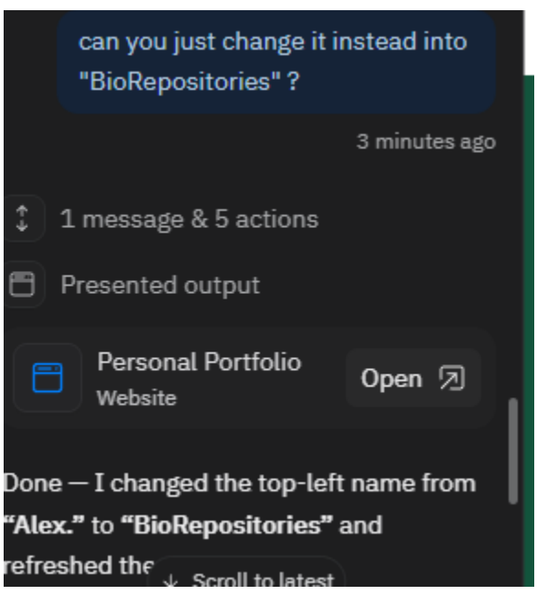
How to edit the Alex. Tab?
5 minutes ago
To edit the "Alex." text in the top-left navbar, open:
artifacts/personal-portfolio/src/components/navbar.t



can you just change it instead into "BioRepositories" ?

Final Reflection:

Based on my experience using Replit AI, the prompting and output work better than I imagined, providing an excellent starting point for the portfolio. Even though the initial output looks great, it needed manual fixing everywhere, starting with the Home Page. The home page initially displayed an introduction to software, but I needed it to be Genetics, so I manually edited it to display "Genetics Research and Engineering".

Aside from that, another thing I learned from prompting is that not all LLMs I can consider "dumb", but instead it would be that my prompts are limited and they do not describe what I would be looking for, and so it would result in an output that I did not imagine. But if I give a prompt that is clear and as specific as possible, and include the other details, the results given would be as close to how I want it as possible, and would just need manual/ AI revisions.
